Entry Sets, Deadbolts & Leversets

EMTEK

Emtek is dedicated to helping bring your personal style to life. Door and cabinet hardware are more than a way to open, close, latch or enter a space. To us, it is an integral part of the look and feel of a room and its overall design theme. It is an extension of our customer's personal style and we want it to do more than blend in, but rather, for it to make a statement. Your statement.

Emtek products are a cut above in terms of pure craftsmanship and customization. We assemble every order to our customer's specification in Southern California. There is no predetermined combination of trim, lever, and finish. We let you decide how to mix and match our products according to your own taste and style vision. Emtek custom assembled locks are typically shipped within 2 – 3 business days to dealers in the United States and Canada. Most dealers receive orders within five business days. We make your order how you want it and we get it to you quickly.

Founded in 1981, Emtek has decades of experience in creating door and cabinet hardware. We keep our finger on the pulse of the market and are always releasing new designs and finishes to match the latest trend. Our style is current, but we never forget about the classics. From traditional to rustic, transitional, or contemporary, we have hardware to match every style.

In this brochure, you will find examples of the numerous products available from Emtek. Everything you see can be customized with a variety of pairings in trim, lever, and finish. To see Emtek's complete product offering, please visit our website at [www.emtek.com](http://www.emtek.com) or visit your local Emtek dealer. Emtek's website also includes valuable tools like the Product Selector, which will let you visualize different combinations of products.

Emtek is a part of ASSA ABLOY, the largest lock manufacturing company in the world. ASSA ABLOY is headquartered in Stockholm, Sweden. ASSA ABLOY is the global leader in door opening solutions.

## Make a connection with your lock

Download the free app to program and manage user codes for the lock.

An easy-to-use app wizard walks you through the steps for Bluetooth setup. You can add, edit, and delete user codes from your device. An activity log will show you the date, time and user who opened the lock.

Don't worry about upgrading or replacing your phone, you can communicate existing data to a new device. You only need one smart phone or device to communicate with multiple locks.

\* **Handing Required for Leversets.** Available lever options for the inside trim only. Liscio cannot be used in conjunction with a deadbolt for standard 5½" center-to-center door preparation. Deadbolt dimensions vary, please verify door preparation based on actual deadbolt measurements. Supplied with Adjustable Latch to fit 2¾" or 2¾" backset. Complete Set Includes Latch and Strike Plate.
