

**WEATHER SHIELD®**  
WINDOWS & DOORS

**COMMERCIAL SOLUTIONS**

Windows and Doors for  
Commercial Applications

WELCOME

## A SOLID FOUNDATION TO BUILD ON

When Edward Lee Schield designed his first window in 1955, he set into motion a company built around an inventive spirit. His enthusiasm for innovation defines Weather Shield to this day. After more than 60 years and 33 patents, Weather Shield remains faithfully focused on creating something better and purposeful.

Our quest to bring you the latest and greatest products is firmly grounded in serving the needs of our customers. We're still a family-owned business that believes in listening closely to the people who specify, buy and install our windows and doors. Their input is critical as we strive to improve and perfect every aspect of product design and performance.

Our commercial solutions embrace our founder's vision of combining old-world craftsmanship with innovative designs and materials. With numerous collections to choose from, we offer windows and doors ideally suited to commercial applications, with timeless aesthetics and the latest advancements in energy efficiency.

The end result is a broad, bold and beautiful palette to perfect your commercial project.

## WHY WEATHER SHIELD?

## 5 REASONS TO CONSIDER WEATHER SHIELD

With hundreds of window and door manufacturers to choose from, it can be difficult to distinguish one company from another. We thought it might be helpful to share a few of the things that set Weather Shield apart from the rest.

### 1 Continuous Innovation

At Weather Shield, we never stop searching for ways to improve both our products and our processes. The goal of discovering new and innovative solutions has always been part of our DNA. That's why we have our own dedicated Research and Development Center and the largest onsite test lab in the industry. Not a day goes by when we aren't working on building a better product.

### 2 Best-In-Class Warranty

At Weather Shield, we do more than talk about our dedication to craftsmanship and quality materials. We back our products with a warranty against defects in material or workmanship for a period of 20 years, and against wood rot on all clad products for 30 years\*. So you can be confident you're getting an outstanding product from a trustworthy company.

### 3 Design Flexibility

When you design with Weather Shield, you have options. Our casements alone allow you to create more than 6,000,000 different configurations.

Choose from an impressive array of wood interiors and finishes, along with a myriad of exterior colors. We also offer some of the industry's largest expanses of glass for framing spectacular views. Whatever the style, whatever the size, nobody gives you more choices than Weather Shield.

### 4 Energy Efficiency Without Sacrifice

Through our innovative use of materials and design, we're able to offer industrial strength efficiency with refined appearance. We're very deliberate in our use of energy efficient materials to drive performance where it matters most. We're proud to offer an extensive number of beautifully designed ENERGY STAR® rated products.

### 5 Family Owned and Operated

For more than 60 years, Weather Shield has remained a family-owned and operated company. That allows us the freedom to take a long-term perspective and keep our focus on serving customer needs rather than a singular focus of achieving quarterly financial targets.

As we've grown to become a respected national brand, we've seen technology and materials evolve. But our core values have never changed. Today, we remain dedicated to building long-term relationships and crafting innovative products that meet the needs of our customers

\*For more specific information regarding our warranty, visit [weathershield.com/warranties](https://weathershield.com/warranties).

## MORE THAN 60 YEARS OF EXCEPTIONAL CUSTOMER SERVICE

Putting our clients' needs first is an essential part of the Weather Shield philosophy. For decades, we've focused not only on innovative design but first-class customer service — so we can make your job easier, your projects more successful, and your customers happier. We offer more than superior doors and windows. We also offer the professional services and tools you need to excel.

### Count on Weather Shield for COMPLETE PROJECT MANAGEMENT, including:

- Helping you select the right products for the job
- Consulting on custom product designs
- Writing and reviewing specifications
- Developing price quotations
- Compiling project submittals
- Assess code compliance
- Assisting with LEED® compliance
- Provide test reports
- Providing detailed CAD drawings
- Supplying material samples
- Value engineering a project to help you meet your budget

### Architectural Tools

- Detailed 2D CAD Library
- 3D Revit Models/BIM Library
- Rapid prototyping/solid modeling
- AIA continuing education programs

### Starting Your Next Project

To contact a specialist in our architectural consultation group, call **1-800-538-8836**.

Business hours are 8:00 am - 5:00 pm CST, Monday - Friday.

Or email [archservices@weathershield.com](mailto:archservices@weathershield.com).

For drawing and technical information and to find a dealer in your area visit [weathershield.com](http://weathershield.com).

SOLID MODEL PROTOTYPE OF EXTERIOR TRIM AND SILL

### Rapid Prototyping

Do you need to see what you are going to get before you get it? No problem. Weather Shield has the ability to rapidly make solid model prototypes for custom window and door parts. This helps you save time and money.

## PROFESSIONAL SERVICES

<b>Building Name:</b>	Ten Mile Station
<b>Location:</b>	Breckenridge, Colorado
<b>Exterior Material:</b>	Aluminum-Clad
<b>Product Type:</b>	Casements, Fixed Pictures, Custom Geometric Shapes
<b>Options:</b>	Custom Color Exterior Finish, Simulated Divided Lites, High Altitude Glass

## SUSTAINABLE DESIGN

## MINIMAL ENVIRONMENTAL IMPACT, MAXIMUM SAVINGS

We place a high priority on energy efficiency so that our products not only save the environment but save our clients money as well. Some of the incredible advancements we've made in this arena include glazing options that minimize temperature transfer and maximize personal comfort, reductions in natural resource consumption through sustainable-growth woods, and utilizing recyclable materials like glass, vinyl and wood, plus low-volatile organic compound paints and sealants. It all adds up to an important difference for the planet — and for our clients.

### Helping Your Projects Earn LEED® Certification

More and more businesses are choosing to build, buy, or rent facilities that meet the green building standards set forth by LEED (Leadership in Energy and Environmental Design), a program of the U.S. Green Building Council. LEED certification is awarded based on credits earned in a variety of areas, from energy efficiency to stewardship of resources to overall building performance. Using Weather Shield windows and doors, which exceed the performance guidelines of the National Fenestration Rating Council (NFRC) and ENERGY STAR®, can help you obtain LEED certification on your project. **Call 800.538.8836 or email us at [archservices@weathershield.com](mailto:archservices@weathershield.com) for more information.**

### Forest Stewardship Council

The Forest Stewardship Council® (FSC®) is an independent, non-profit organization established to promote the responsible management of the world's forests. Weather Shield is proud to offer FSC chain-of-custody (COC) certified wood on all our windows and doors constructed with wood.

## PROJECT SPECIFICATIONS

<b>Building Name:</b>	Hawkins Hall, State University of New York
<b>Location:</b>	Plattsburgh, New York
<b>Exterior Material:</b>	All Wood
<b>Product Type:</b>	Historical Single Hungs and Fixed Pictures
<b>Options:</b>	Custom Color Exterior Finish, Simulated Divided Lites, Factory Painted Interiors

### Weather Shield Environmental Stewardship

Weather Shield not only encourages environmental stewardship among the building and design community, but it also demonstrates its environmental commitment through company-wide manufacturing practices, such as:

- Recycling of paper, wood, glass, vinyl, chemicals, aluminum and other metals. This accounts for 500-600 tons of solid and hazardous waste per year.
- Providing environmental awareness training to employees.
- Developing and maintaining strong relationships and communications with federal, state and local government agencies.
- Incorporating renewable resource utilization on practices (raw materials reuse and fuel programs) throughout the manufacturing and logistics processes.
- Using low-emitting volatile organic compound (VOC) and hazardous air pollutant (HAP) coatings.
- Meeting or exceeding all applicable environmental standards and regulations.

## WEATHER SHIELD CONTEMPORARY COLLECTION®

Our Contemporary Collection windows and doors illustrate a seamless, modern aesthetic that has been flawlessly engineered and painstakingly crafted for those who reject compromise.

- Developed in collaboration with architect and interior designers.
- Narrow profile frames and sash designed for a slim-line appearance and more exposed glass to maximize your viewing space.
- Custom hardware with modern squared-off styling, now available in a wider range of finishes.

ALUMINUM-CLAD WOOD

## WEATHER SHIELD PREMIUM SERIES®

ALUMINUM-CLAD WOOD

ALL-WOOD

Weather Shield Premium Series® is a complete line of quality all wood or extruded aluminum clad wood windows and patio doors.

- Heavy extruded aluminum exteriors can be finished in almost any color including anodized and radiant metallic finishes.
- Historically-accurate designs make this an ideal product for commercial rehab projects.
- Our most expansive offering of options, accessories and trim to create the perfect installation.

## WEATHER SHIELD SIGNATURE SERIES®

Weather Shield Signature Series® is our most popular line of windows and doors. The Signature Series features an extruded aluminum exterior with the perfect balance of our most popular options and configurations.

- Superior construction and premium aesthetics make the Signature Series windows and doors one of the most carefree products in the industry.
- Butt-jointed exterior cladding provides architecturally accurate sightlines, and the fusion welded sub-frame virtually eliminates water or air infiltration at the frame joints.
- The sub-frame acts as a thermal barrier to stop the transfer of heat and cold.

ALUMINUM-CLAD WOOD

## WEATHER SHIELD ASPIRE SERIES®

VINYL-CLAD WOOD

Weather Shield Aspire Series® is a complete line of vinyl-clad wood windows and patio doors that provide the benefit of a low maintenance exterior with a rich, warm wood interior.

- Vinyl extrusions on the exterior sash and frame make these windows and patio doors exceptionally durable.
- Fusion-welded frame and sash cladding eliminates water infiltration at corner joints.
- Low conductive vinyl allows for exceptional thermal performance.

## VISIONS® 3500 SERIES

Visions 3500 Series is a complete line of vinyl windows and patio doors that offer very low maintenance and high durability.

- Highly engineered vinyl extrusions make these windows and patio doors exceptionally strong and efficient.
- Fusion-welded frames eliminate water infiltration at corner joints.
- Narrow lines and vast color selection make it desirable for today's commercial design.

# BUILD IT RIGHT, STAND BEHIND IT

That's the Weather Shield way.

## Committed to High Performance, Extraordinary Products and Superior Service

We design and manufacture stunning windows and doors that perform to the highest standards. Each features many options to achieve aesthetic and performance goals, and all are backed by customer care teams and field support.

- Sustainable production
- Energy efficient designs and glass coatings
- LEED assistance for architects and builders
- Product available with FSC® certified wood

## Vertically Integrated

Weather Shield sets the standard for quality control by vertically integrating to ensure the highest level of excellence at every step.

- We develop our own designs and technology
- We machine our own millwork
- We cut, temper, and insulate our own glass
- We extrude our own vinyl
- We own our own trucking fleet

## Custom Design Solutions

Weather Shield specializes in engineering the perfect solution for your unique window and door challenges. From the replication of historical trim to the creation of custom aluminum extrusions, Weather Shield has the expertise to ensure the success of your next commercial project:

- Custom aluminum extrusions
- Specialized paint and anodized finishing
- Sourcing of custom infill panels and spandrel glass

## Positioned for the Future

When some in the industry reeled during the most recent downturn, Weather Shield consulted with dealer partners to re-tool product lines for future growth.

We invested over five million dollars in improving our products and processes to be ready for the market rebound, positioning our company – and our customer partners – to take advantage of the recovery.

## Our latest Innovation, the TriCore™ Frame System

- Protects windows from weather damage while improving energy efficiency
- Extreme Thermal Barrier – resists temperature transfer and improves thermal performance
- Moisture-Resistant Sub Frame – eliminates the chance of main frame rotting or deteriorating
- Fusion-Welded Sub Frame – virtually eliminates water and air infiltration at the frame or sash joints
- Foam-Filled Weather Stripping – creates a weather-tight seal between the sash and frame
